ABOUT ME

Hi, I'm Clifton van Henten, a **programmer**, **designer**, and **modder** passionate about creating unique and impactful projects. From building dynamic websites to crafting immersive game mods and arcade games, I love tackling challenges and bringing creative ideas to life.

I combine technical expertise with a creative mindset to deliver projects that are both functional and engaging. My work is driven by passion, dedication, and a belief that every project should offer something new and exciting.

TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, Python, SQL, C#, Java, GSC (Game Script Code).

- **Web Development:** Experienced in building dynamic websites, integrating databases, and utilizing serverless technologies like Cloudflare Workers.

- **Game Development:** Expertise in designing and coding game mechanics, progression systems, and weapon features for mods and standalone games.

- **UX/UI Design:** Proficient in creating intuitive and visually appealing interfaces using tools like Figma, Adobe XD, and Photoshop.

SOFT SKILLS

- **Project Management:** Experienced in organizing and managing tasks using tools like Trello and working in Agile environments.

- **Creative Problem-Solving:** Able to think of progressive and innovative solutions to combat challenges.

- **Communication:** Fluent in Dutch and English, with strong skills in working with teams, clients, and communities.

- **Teamwork and Collaboration:** Experienced in working within teams and managing diverse client needs while maintaining a collaborative approach.

- **Leadership and Motivation:** Proven ability to inspire and lead others, including managing large communities and fostering engagement.

- **Accountability:** Reliable and adaptable, with experience handling responsibilities in professional and caregiving roles.
